Sir:

The captioned application was assigned to Graph to Graphics, Inc. and the assignment was recorded at reel/frame 011985/0809. The evidentiary document accompanying or referred to in the instant terminal disclaimer has been reviewed by the undersigned and it is certified that to the best of assignee, Graph to Graphics, Inc.'s knowledge and belief, title is in the assignee.

Petitioner, Graph to Graphics, Inc., hereby disclaims the terminal part of any patent granted on the above identified application, which would extend beyond the expiration date of the patent maturing from Serial No. 09/872,942, filed June 1, 2001, that is, subsequent to twenty years from the filing date of that patent or later, as permitted by law, and, except as provided below, hereby agrees that any patent so granted on the above identified application shall be enforceable only for and during such period and that both patents will remain commonly owned. I hereby declare that all statements made herein of our own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false statements, and the like so made, are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
